

Reverse Risk Warranty

Weather Tight is so confident that you will be happy with the installation of your new product that we are willing to make this exclusive offer:

Weather Tight guarantees the installation of your product against defects, or your money back.

See back for details.

WEATHER TIGHT'S REVERSE RISK WARRANTY

If, within thirty (30) days of completion of original installation, there is any Installation Defect that Weather Tight cannot remedy within ninety (90) days of notification, Weather Tight will refund your purchase price, subject only to the following conditions:

1. Customer must pay in full Weather Tight's total contract amount, including all change orders and addendums, upon completion of the original installation.
2. Customer must notify Weather Tight, within thirty (30) days of completion of the original installation, of Customer's complaint, in writing, via certified mail, specifically detailing the alleged Installation Defect. For purposes of this guarantee: (1) "completion" shall be when products ordered have been substantially installed, and shall not include remaining service work or repairs; and (2) "Installation Defect" shall be the failure by Weather Tight to install the product(s) according to acceptable industry standards as determined by the National Association of the Remodeling Industry (NARI).
3. This reverse risk warranty covers Installation Defects. Any and all product defects are guaranteed to the extent covered by the Manufacturer's Warranty provided to Customer by Weather Tight, and are excluded from this guarantee. This guarantee does not cover Customer's choice of color, style, and/or design. Weather Tight cannot be held liable for, and therefore this guarantee also does not cover, defects, damage or problems due to: reasonable wear and tear; alterations or repairs made by third parties; misuse, abuse, neglect, improper maintenance, accidental or intentional damage by Customer or other third parties; condensation and/or humidity resulting from climate conditions; settling of the building; fire, explosions, flood, lightning or other acts of God; and/or any external forces beyond the reasonable control of Weather Tight.
4. Customer must allow Weather Tight ninety (90) days to remedy the Installation Defect according to acceptable industry standards as determined by NARI (hereafter "NARI Standards"). This necessarily includes providing Weather Tight access to Customer's property as reasonably required by Weather Tight during normal business hours.
5. In the event Weather Tight informs the Customer that it is unable to remedy the Installation Defect according to NARI Standards, Customer must replace the affected product with another company's product and make Weather Tight's affected product available to Weather Tight in the same condition as installed within ninety (90) days following Weather Tight's notice to Customer that it is unable to remedy the Installation Defect according to NARI Standards. Then Weather Tight will reimburse 100% of Customer's purchase price for the affected product.

If Customer disagrees that the Installation Defect has been remedied, Customer may submit the matter to NARI for binding arbitration. Customer agrees that binding arbitration with NARI is Customer's sole remedy for any disputes under this guarantee.
